DANIEL E. FINOL-GONZÁLEZ

danielfinol@gmail.com · Phone: +56945646658 · linkedin.com/in/danielfinol

Lecturer+Magister in Computer+Data Science

HIGHER EDUCATION

- **Master** of **Applied Computer Science,** Institute for Applied Calculus, School of Engineering, *Universidad del Zulia*, Maracaibo, Venezuela – 2006. **Thesis**: Global Optimization of Functions through Multiple Surrogate Models. **Grade average**: 19.56 / 20. (**97,8%**)
- **Bachelor of Science** in **Computer Science**, School of Sciences, *Universidad del Zulia*, Maracaibo, Venezuela – 2001. **Thesis**: Iterated Adjustments Method for the Multidimensional-Scaling Problem. **Grade average**: 17.06 / 20 (**85.3%**; 2nd highest score and 1 of only 2 students with No class failed in a cohort of over 50). **Ranked: 1st** in the School of Sciences class of 2001.

PROFESSIONAL EXPERIENCE

- Teacher (Python Programming and Data Science) at *Universidad Alberto Hurtado*, March-august 2026.
- Senior Script Writer at Ipsos Interactive Services. From August 2021 – August 2022.
- Teaching Assistant. Neuromatch Academy – Deep Learning 2021. Neuromatch. August 2021.
- Project Teaching Assistant. Neuromatch Academy - Computational Neuroscience 2021. Neuromatch. July 2021.
- Teacher at the *minor* Artificial Intelligence + Law (IA+D), School of Law, *Universidad Autónoma de Chile*. 2020, 2021.
- **Aggregate Professor**. Applied Computer Science Master's Program, Institute of Applied Calculus, School of Engineering, *Universidad del Zulia*. **2005-2018**.
    - Courses taught (all at the master's program): Mathematics for Computer Science | Programming Techniques | Statistical Methods | Data Structures and Algorithms | Neural Networks (*Machine Learning*) | Stochastic Models.
- Secretary of the Technical Council, Institute of Applied Calculus, School of Engineering, *Universidad del Zulia*. 2013-2018
- Academic Working-Scholarship. Institute of Applied *Calculus*, School of Engineering, *Universidad del Zulia*. 2002-2004.
- Intern at Chevron. 2000 (Analysis and Development in Access and SQL Server).
- Teaching Assistant. Calculus I. School of Sciences, *Universidad del Zulia*. 1997-1999.

PUBLICATIONS AND RESEARCH

- *Approaches to the notion of artificial intelligence and other concepts related to it*. ("Aproximaciones a la noción de inteligencia artificial y otros conceptos vinculados con ella"). Azuaje Pirela, M., Finol González, D. *Introducción a la ética y el derecho de la inteligencia artificial* (pp.19-35) Madrid: La Ley. 2023
- *Teaching and Learning Artificial Intelligence and Law in Chile: About the Minor in Artificial Intelligence and Law from the Universidad Autónoma de Chile*. ("Enseñanza y aprendizaje de la inteligencia artificial y derecho en Chile: Sobre el *minor* en Inteligencia Artificial y Derecho de la Universidad Autónoma de Chile"). Contreras Vásquez, P., Azuaje Pirela, M., Díaz Fuenzalida, J., Bedecarratz Scholz, F., Bozzo Hauri, S., & Finol González, D. *Revista Pedagogía Universitaria y Didáctica del Derecho* (**Scopus, WoS**, Latindex, etc.), 8(2), 281-302. Chile, December, 2021. doi:10.5354/0719-5885.2022.64456
- *Algorithmic transparency and intellectual property: tensions and solutions*. (**"**Transparencia algorítmica y propiedad intelectual: tensiones y soluciones**").** Azuaje Pirela, M.; Finol González, D. *Revista La Propiedad Inmaterial* (**WoS** indexed). Colombia, December 2020.
- *Algorithmic transparency: New limit to intellectual property rights?* ("Transparencia algorítmica: ¿Nuevo límite al derecho de propiedad intelectual e industrial?") - *Legal Regime Applicable to the Protection of Big Data and Algorithms in Chilean Law in the Light of Comparative Law*. ("Régimen Jurídico Aplicable a la Protección del Big Data y los Algoritmos en el Derecho Chileno a la luz del Derecho Comparado"). Azuaje Pirela, M., Finol González, D. *Liber Amicorum Homenaje a Luis F.P. Leiva Fernández.* Buenos Aires: Editorial Thomson-Reuters La Ley, 2020.
- *Some challenges of intellectual property in the face of artificial intelligence and other new technologies*. ("Algunos retos de la propiedad intelectual e industrial frente la inteligencia artificial y otras nuevas tecnologías.**"**) Azuaje Pirela, M. and Finol González, D. *Anuario de Propiedad Intelectual* (pp. 391-417). Editorial Reus. Madrid, 2019.
- *Big data, algorithms and intellectual property*. ("Big data, algoritmos y propiedad intelectual.") Azuaje Pirela, M.; Finol González, D. *Anuario de Propiedad Intelectual,* Editorial Reus. Madrid, 2016-2017.
- "**Adaptive assembly of metamodels for the solution of modeling and global optimization problems**". Finol, D. and Queipo, N. *Technical Journal of the School of Engineering* (SciELO), Maracaibo, Venezuela, 2012.
- Researcher Responsible for the Humanistic and Technological Scientific Development Council (CONDES) project, "**Optimizing Functions Using Multiple Surrogate Models**" (CC0535-07) 2008 – 2009.
- Speaker: "**Global Optimization Using a Model Ensemble**", Finol, D. and Queipo, N. 1st International Scientific-Technical Congress of Engineering. Universidad del Zulia, Maracaibo, Venezuela, 2007.

COURSES SYMPOSIA WORKSHOPS AND HACKATHONS

- "AI Safety Collab". AI SAFETY ATLAS + Centre pour la Sécurité de l'IA. 04-05/2025
- "AI Alignment Fast-Track". BlueDot Impact + AI Safety Fundamentals. 12/2024
- "Intro to Transformative AI". BlueDot Impact + AI Safety Fundamentals. 12/2024
- "Gen AI Intensive". Kaggle + Google. 11/2024.
- "Open Science 101". Neuromatch Academy + NASA. 11/2024.
- "NeuroAI: Interactive Track + Project". Neuromatch Academy. (85 hrs.) 07/2024.
- "A Short First Course in Network Science". Network Science Society. June 3-14, 2024
- "GenAI Tools for Research". Escuela Internacional de Doctorado, UCLM. 05/2024
- "Online Social Data School". Cambridge Digital Humanities, University of Cambridge. 12/2023
- "Data Science Bootcamp". Aspasia / SOFOFA /SENCE. (180 hrs.) 03 – 05/2023
- "Introduction to Research Data Science 2023". The Alan Turing Institute. 02/2023
- "MIT–Chile Human-Centered AI & Visualization Research Workshop". Massachusetts Institute of Technology, Pontificia Universidad Católica de Chile. 01/2023.
- "Full-Stack Python Bootcamp trainee". (CodingDojo **Black belt**) *Talento Digital para Chile* – Inforcap. 04 – 07/2021.
- "The Alan Turing Institute Data Study Group". Advanced Manufacturing Research Center Challenge. 04/2021
- "Computational Psychiatry Course". Translational Neuromodeling Unit, University of Zurich & ETH Zurich. 09/2020
- "Neuromatch Academy". *Interactive track*. International Computational Neuroscience course. (3 weeks) 07/2020
- Coordinator: Symposium "Applied Calculus" of the "1st International Scientific-Technical Congress of Engineering", School of Engineering, *Universidad del Zulia*, Maracaibo, Venezuela, 2007
- "Teaching Update and Improvement", School of Engineering, *Universidad del Zulia*. (**Grade: 19/20**). 2002-2004
- "New Frontiers of Bioinformatics in Latin America". National Center for Scientific Calculus of the ULA (CeCalCULA), *Universidad de Los Andes*, Mérida, Venezuela. 2003.
- "MPI System: Programming of Parallel and Distributed Architectures". 18 hours. 04/1998. School of Sciences, *Universidad del Zulia*. "Approved outstandingly".

SKILLS ASSESSMENT AT DATACAMP (Score was better than the indicated percentage of Datacamp users who took the assessment.)

- Understanding and Interpreting Data: **100th** percentile (181 points), 09/2020
- Python Programming: **99th** percentile (168 points), 09/2020
- Machine Learning Fundamentals in Python: **98th** percentile (160 points), 09/2020

AWARDS AND DISTINCTIONS

- Second prize in the "XI Premio Aseda" for doctrinal articles on intellectual property. For the work titled: *Big Data, algorithms and intellectual property.* ASEDA (Association for the Study and Teaching of Copyright), Madrid, 2017
- Winner of the *Fundadesarrollo* Academic Scholarship at the Institute of Applied Calculus. 2002
- 1st place in the III Programming Marathon of the F.E.C., School of Sciences, *Universidad del Zulia*. 06/1999
- 1st place in the 1st South American Regional Elimination of ACM (Association for Computing Machinery) Programming Marathon Caracas'98. *Universidad Central de Venezuela*. 01/1998.
- 2nd place in the 1st National University Programming Marathon UCV-1998. *Universidad Central de Venezuela*. 08/1998.
- 1st place, II Programming Marathon. School of Sciences, *Universidad del Zulia* 05/1998
- Honor Roll, Bachelor of Science, School of Sciences, *Universidad del Zulia* 1998

PROGRAMMING LANGUAGES: Python, C, Matlab/Octave.

LANGUAGES

- Spanish (native language).
- English: 2 years attending Bloomington High School North, Indiana, USA; **+** worked in English-language organization: 2021-2022; **+** EF SET Certificate: 95/100, **C2 Proficient**, 14/02/2023.
- French (All levels in *L'Alliance Française* + DELF Certificates A1, A2, A3 and A4).

MASSIVE OPEN ONLINE COURSES (MOOCS)

- Introduction to Artificial Intelligence – 2011 – Stanford – Independent – S. Thrun, P. Norvig – 100% – **Advanced Track. Top 1%**
- Machine Learning - 2011 - Stanford – Independent - Andrew Ng - 100% - Advanced Track
- Introduction to Computer Science - 2012 - Udacity - David Evans, Sebastian Thrun - *Highest Distinction*
- Artificial Intelligence for Robotics – 2012 – Udacity – Sebastian Thrun - *Highest Distinction*
- Networked Life – 2012 – University of Pennsylvania – Coursera – Michael Kearns – 100% – *with Distinction*
- Algorithms: Design and Analysis, Part 1 – 2013 – Stanford – Coursera – Tim Roughgarden – 94.0%
- Model Thinking – 2013 – University of Michigan – Coursera – Scott Page – 97.3%
- Introduction to Philosophy – 2013 – The University of Edinburgh – Coursera – D. Ward, et al. – 100%
- Synapses, Neurons and Brains – 2013 – Hebrew University of Jerusalem – Coursera – Idan Segev – 97.1%
- The Modern World: Global History since 1760 – 2013 – University of Virginia – Coursera – Philip Zelikow – 109.4% – *with Distinction*
- A Beginner's Guide to Irrational Behavior – 2014 – Duke University – Coursera – Dan Ariely – 99.2%

- The Data Scientist's Toolbox – 2014 – Johns Hopkins University – Coursera – J. Leek, R.D. Peng and B. Caffo –96.0% – *with Distinction*
- R Programming – 2014 – Johns Hopkins University – Coursera – J. Leek, R.D. Peng and B. Caffo – 100% – *with Distinction*
- Unpredictable? Randomness, Chance and Free Will – 2014 – National University of Singapore – Coursera – V. Scarani – 86.0% – *with Distinction*
- Moralities of Everyday Life – 2014 – Yale University – Coursera – Paul Bloom – 97.5%
- Statistical Analysis of fMRI Data – 2014 – Johns Hopkins University – Coursera – Martin Lindquist – 99.2%
- Computational Neuroscience – 2014 – University of Washington – Coursera – Rajesh P.N. Rao and Adrienne Fairhall – 100%
- A Brief History of Humankind – 2014 – Hebrew University of Jerusalem – Coursera – Yuval Noah Harari – 100%
- Cellular mechanisms of brain function – 2015 – Ecole Polytechnique Fédérale de Lausanne – edX – Carl Petersen – 93.0%
- Introduction to Differential Equations – 2016 – Boston University – edX – Paul Blanchard – 91%
- Linear Differential Equations – 2016 – Boston University – edX – Paul Blanchard – 95%
- Nonlinear Differential Equations: Order and Chaos – 2016 – Boston University – edX – Paul Blanchard – 98%
- Cognitive Neuroscience Robotics - Part A – 2016 – Osaka University – edX – S. Nihio, et al. – 98%
- Calculus: Single Variable Part 4 - Applications – 2016 – U. of Pennsylvania – Coursera – Robert Ghrist – 96.8%
- Calculus: Single Variable Part 3 - Integration – 2016 – U. of Pennsylvania – Coursera – Robert Ghrist – 82.2%
- Calculus: Single Variable Part 2 - Differentiation – 2016 – U. of Pennsylvania – Coursera – Robert Ghrist –100.0%
- Calculus: Single Variable Part 1 - Functions – 2016 – U. of Pennsylvania – Coursera – Robert Ghrist – 99.8%
- Introduction to the Philosophy of Cognitive Sciences – 2017 – University of Edinburgh – Coursera – Michela Massimi et al. – 100%
- Practical Time Series Analysis – 2018 – The State University of New York – Coursera – William Thistleton, Tural Sadigov – 98.8%
- Neural Networks and Deep Learning – 2018 – deeplearning.ai – Coursera – Andrew Ng et al. – Verified Certificate – 98.6%
- Improving Deep Neural Networks – 2018 – deeplearning.ai – Coursera – Andrew Ng et al. – Verified Certificate – 100%
- Structuring Machine Learning Projects – 2018 – deeplearning.ai – Coursera – Andrew Ng et al. – Verified Certificate – 100%
- Neural Networks for Machine Learning – 2019 – University of Toronto – Coursera – Geoffrey Hinton – Verified Certificate – 100%
- Machine Learning Fundamentals with Python Track – 2020 – Datacamp – Components: Supervised Learning with scikit-learn, Unsupervised Learning in Python, Linear Classifiers in Python, Case Study: School Budgeting with Machine Learning in Python, Introduction to Deep Learning in Python
- Introduction to Portfolio Risk Management in Python - 2020 - Datacamp
- Introduction to Network Analysis in Python - 2020 – Datacamp
- Foundations & Applications of Humanities Analytics – 2021 – Santa Fe Institute – Complexity Explorer – S. DeDeo, D. Kinney – 102%
- Machine learning in Python with scikit-learn – 2022 – Inria – France Université Numérique – G.Varoquaux et al. – 100%
- RIP : Rétro-Ingénierie de Programmes – 2025 – Université de Lille – France Université Numérique – P. Graux, T. Vantroys – 85%
- Political Philosophy: An Introduction – 2025 – Univ. di Firenze – iversity – Furio Cerutti – 100%
